Manufacture Note:

During the manufacturing process this model of fence is bundled and packed in a nested format to maximise the loading volume on a vehicle. Each individual pack of panels is strapped very tightly together with metal banding to ensure the goods do not move in transit. This method of packing does however leave small indentations on the vertical tubes at the point where the vertical and horizontal tubes meet and may also result in the top of the vertical tube being slightly oval. Please be aware that this is not a manufacturing defect and will not affect the use of the product in any way.

THE COMPANY RETAIN THE RIGHT TO PERIODICALLY ALTER INFORMATION WITHIN THIS DRAWING SHEET AND WILL ATTEMPT TO NOTIFY ALL PARTIES CONCERNED OF ANY CHANGES AND THE INFORMATION ON THIS SHEET SHOULD NOT BE REPRODUCED WITHOUT THEIR WRITTEN CONSENT.
